APPLICANT: PROTEIN SPECIALTIES LID.

APPLICANT: HSC RESEARCH AND DEVELOPMENT LIMITED PARTNERSHIP

TITLE OF INVENTION: SELF-ALIGNING PEPTIDES MODELED ON HUMAN ELASTIN AND

TITLE OF INVENTION: OTHER FIBROUS PROTEINS

FILE REPERENCE: 041082/0112

CURRENT APPLICATION NUMBER: US/09/964,662

CURRENT FILING DATE: 2003-05-08

PRIOR APPLICATION NUMBER: 09/340,736

PRIOR APPLICATION NUMBER: 09/340,736

PRIOR PRIOR FILING DATE: 1999-06-29

NUMBER OF SEQ ID NOS: 11

SOFTWARE: Patentin Ver. 2.1

Patent No. 5606019
GRNEAL INFORMATION:
GRNEAL INFORMATION:
TITLE OF INVENTION: Synthetic Proteins As Implantables
NUMBER OF SEQUENCES: 9
CORRESPONDENCE ADDRESS:
ADDRESSEE: Flehr, Hohbach, Test, Albritton & Herbert
STREEF: Four Embarcadero Center, Suite 3400
CITY: San Francisco
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               2 PGFGV--GVGGIPGVAGVPGVGGVPGVGGVPGVGISPEAQAAAA
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  COMPUTER READABLE FORM:
MEDIUM TYPE: Floppy disk
MEDIUM TYPE: Ploppy disk
OCMPOTER: IBM PC compatible
OPERATING SYSTEM: PC-DOS/MS-DOS
SOFTWARE: Patentin Release #1.0, Version #1.25
APPLICATION NUMBER: US/08/212,237
CLASSIFICATION: 514
PRIOR APPLICATION DATA:
APPLICATION UNGER: US 08/212,237
FILING DATE: 11-MAR-1994
ATTORNEY/AGENY INFORMATION:
NAME: Trecartin, Richard F.
RESISTRATION NUMBER: 31,801
REFERENCE/DOCKET NUMBER: 31,801
RESERROCAPION NUMBER: 31,801
RESERROCAPION NUMBER: 31,801
RELECOMMUNICATION NUMBER: 32,801
TELEPHONE: (415) 781-1989
TELEPRONE: (415) 381-389
INFORMATION FOR SEQ ID NO: 33:
SEQUENCE CHARACTERISTICS:
LENGTH: 1169 amino acids
